

Bathroom

✘ DON'T

- ✘ Use automatic toilet bowl cleaners.
- ✘ Use anti-bacterial hand soap.
- ✘ Put paper towel, tissue, hair, baby wipes (even ones marked 'flushable'), or feminine products (no tampons) down the toilet.
- ✘ Put anything down the toilet other than natural waste and toilet paper.

✔ DO

- ✔ Use non-antibacterial soap.
- ✔ Use biodegradable cleaners (phosphate and chlorine free).
- ✔ Use peroxide cleaners.
- ✔ Use single-ply toilet paper.
- ✔ Limit the amount of toilet paper used.
- ✔ Conserve water to avoid overload to septic system.

*Septic systems need bacteria for it to properly function, thus anti-bacterial products are not good for the system.

*The toilet, sink and shower are connected to the septic tank, a system of tanks that allows waste to filter 'slowly' into the ground.

***Protect Our Environment.
We're enjoying it now,
Let's make sure our future enjoys it too!***
